

Endpoint Armor

Does your organization experience any of these common service interruptions?

- Do you worry that your system security is not what it should be?
- Is your cybersecurity desk short-staffed?
- Do you have trouble finding and keeping people with the right skill set?
- Are your servers, workstations, and laptops up to date and secure?
- Are your cybersecurity insurance requirements becoming challenging to meet?

Med Tech Solutions is here to help. As a HITRUST-certified healthcare-focused managed services provider, we understand the challenges you face and can give you the peace of mind that your network, devices, and data are secure and available 24/7.

Our ITCare Teams ensure you have:

ACCESS TO THE EXPERTS

Our deep expertise in healthcare technology means you can rely on MTS to keep your systems security and your data protected. That gives your IT staff more time for projects that support and grow the practice.

FLAT-RATE, VALUE-BASED CARE

With our flat-rate, value-based service plans and pricing, you'll never have to worry about unexpected costs; and the dedicated security MTS team will help you identify vulnerable hardware to help you plan for security needs.

PROACTIVE PROBLEM SOLVING

Imagine if you could catch every health problem before it occurs. We apply this same idea to your security, and we implement best practices we've developed over the years to prevent problems before they surface.

ENDPOINT ARMOR SERVICE PLAN
